SUMMARY

Software Engineer with experience building scalable web applications, automation solutions, AI-powered systems, and enterprise software. Experienced in Python, Java, JavaScript, SQL, cloud technologies, REST APIs, and full-stack development. Proven ability to automate workflows, analyse large-scale datasets, improve digital platforms, and develop AI-driven solutions across enterprise, academic, and cybersecurity environments.

SKILLS

- **Programming & Software Engineering:** C, Java, Python, JavaScript, SQL, PHP, OOP, DSA
- **Full Stack Development:** MERN (MongoDB, Express.js, React, Node.js)
- **Frontend & UI Development:** ReactJS, AngularJS, HTML5, CSS3, Bootstrap
- **Backend, Cloud & DevOps:** Node.js, REST APIs, Express.js, CI/CD, Spring Boot, AWS, Azure, OCI, Docker, Kubernetes
- **AI/ML:** Machine Learning, Deep Learning, LLMs, Transformers, LSTM, NLP, Computer Vision, GenAI, Pandas, NumPy, TensorFlow
- **Data Analytics/Tools & Platforms:** Power BI, Data Analysis, Data Extraction, Data Validation, Statistical Analysis, ETL, Git, Microsoft Office (Excel, Word, PowerPoint), ServiceNow
- **Certifications:** IBM Data Science Professional Certificate, AWS Cloud Essentials, Microsoft Azure AI Fundamentals, Microsoft Azure Data Fundamentals, Codecademy Python 3 Course, HackerRank JavaScript Intermediate, SQL Advanced, Java, CSS, Python Basic Certificates

EMPLOYMENT HISTORY

California State University - Information Resources & Technology

Jan 2024 - Dec 2025

WEB DEVELOPER & IT CONSULTING STUDENT ASSISTANT

Sacramento, CA, USA

- Supported 20+ university departments in improving campus web platforms, accessibility, and user experience for 30,000+ students and 3,000+ faculty/staff.
- Developed Python automation workflows to analyse 1,500+ web pages and 20,000+ digital documents, identifying outdated and non-compliant content for remediation.
- Applied ML classification to categorize 4,000+ university documents and leveraged GA4 analytics to support data-driven improvements across campus websites.
- Diagnosed and resolved 100+ weekly cross-platform technical issues (Windows, Linux, macOS) using ServiceNow, improving system stability and reducing downtime for 1,000+ users.
- Deployed and maintained 40+ lab systems using SCCM, improving software reliability and lab uptime.
- Optimized ServiceNow workflows and documentation, reducing repeat issue frequency and improving ticket resolution times.

Trellix

Jan 2022 - Feb 2023

ASSOCIATE TECHNICAL SUPPORT ENGINEER

Bengaluru, India

- Resolved 300+ enterprise technical support cases across 7+ FireEye/Trellix security platforms, achieving a 95%+ customer satisfaction rate through phone, chat, and remote support.
- Reduced incident resolution time by 30% through effective troubleshooting, incident response, forensic analysis, and remediation for enterprise security environments.
- Identified and reproduced product defects, performed root-cause analysis, and collaborated with engineering by creating Jira tickets, reducing bug verification time by 25%.

PROJECTS

AI-POWERED PERSONALIZED NUTRITION PLANNING SYSTEM

Jan 2025 - Nov 2025

- Built a multi-branch fusion model integrating health metrics, mental-wellbeing scores, genomic SNP sequences, and protein-folding data using LSTM + Transformer architectures to predict personalized nutrient requirements.
- Merged and preprocessed 73,778 dietary records from NHANES and 4,983 genomic profiles from the 1000 Genomes Project, handling missing values, scaling, data alignment, and multi-format feature construction.
- Designed an optimized multi-output regression system predicting grams, energy, protein, carbs, sugars, fiber, fat, and cholesterol with strong model convergence, statistical validation, and deployment-ready architecture.

VIRTUAL TRY ON

Jan 2022 - Apr 2022

- Developed a virtual fitting tool using OpenCV and HaarCascade, enhancing the online shopping experience by enabling realistic previews of clothing items.
- Improved customer engagement by 30% through increased confidence in purchase decisions.
- Implemented a feedback mechanism that collected user preferences, leading to targeted marketing strategies and a 20% increase in conversion rates.

EDUCATION

California State University – Sacramento, CA

Aug 2023 - Dec 2025

MASTER OF SCIENCE, COMPUTER SCIENCE (GPA: 3.56/4)

Sacramento, CA

Amrita Vishwa Vidyapeetham University – Bengaluru, India

Jul 2018 - May 2022

BACHELOR OF TECHNOLOGY, COMPUTER SCIENCE (GPA: 3.48/4)

Bengaluru, India
